1212, Snedecor Hall, 2438 Osborn Dr, Ames, IA 50011

EDUCATION

	STATUS
Iowa State University, Department of Statistics	
Postdoc Research Associate	
Research Interests: Spatial Statistics, Spatial Epidemiology, Statistical Learning for Spatial data Academic advisor: Zhengyuan Zhu; Daniel Nettleton	AUGUST 2021 - CURRENT
Seoul National University, Department of Statistics	
Postdoc Research Associate	MARCH-JULY 2021
Ph.D. in Statistics	FEBRUARY 2021
Dissertation Title: Bayesian regression using non-parametric modeling of Fourier coefficients and its applications Academic advisor: Chae Young Lim	
Yonsei University, Department of Mathematics	
Bachelor of Arts Degree in Mathematics & Bachelor of Arts Degree in Economics (Double Major)	FEBRUARY 2014

PUBLICATION/ WORK IN PROGRESS

SOFTWARE/ WEB APPLICATION

(https://github.com/junpeea)

Name	Description	Reference
spRFPI	Random Forest Prediction Interval for Spatially dependent data	https://github.com/junpeea/spRFPI
NSBSR	Bayesian Spatial Regression using Fourier-spectral approaches	https://github.com/junpeea/NSBSR https://doi.org/10.1007/s42952-021-00156-y
COVID-PM-STZINB	We are developing R-package for the unified Bayesian Disease Mapping Software for Spatial Epidemiology. We would like to provide a simple, unified, and publicly available software that can be implemented to various fields of Disease Mapping	https://github.com/junpeea/COVID-PM-STZINB https://doi.org/10.1007/s13253-022-00487-1.

	studies under contemporary Bayesian framework. (Under development)	
COVID-PM-SHINY	R-Shiny Website based on the work: A spatio-termporal Analytical Outlook of the Expoaure to Air pollution and COVID-19 Mortality in the USA	https://sounakchakraborty.shinyapps.io/covid_final_interface_software_101026/

SELECTED FELLOWSHIPS/ AWARDS

Awards

- Korean Statistical Society, SG Graduate Student Presentation Award, with Honors (The grand prize among graduate student presentations) — 2019, 2017

Grant / Fellowships

- Postdoc research associate, Iowa State University of science and technology, supported by AWD-021392-00001: HDR TRIPODS: D4 (Dependable Data-Driven Discovery) 10/01/2019 (version 5) — 2021-CURRENT
- Postdoc research associate, The Basic Research Lab Project, Seoul National University
- Graduate Fellow, Next Generation Training Program for Statistical Sciences, Seoul National University (5295-20160100)
- Ministry of Education of the Republic of Korea / the National Research Foundation of Korea, Dept. of Statistics (326-20160010)
- President Post-Doc Fellow, the National Research Foundation of Korea, Dept. of Public Health (900-20150065) — 2007-2021
- Graduate Fellow, Basic Research Foundation Project, Seoul National University (326-20140010)
- Mirae Asset PARK HYEON JOO Foundation, Scholarships for overseas exchange students, University of California, San Diego
- Science and Engineering Scholarship (4-years), Korea Student Aid Foundation.

PRESENTATION/ POSTER

Paper presentation

- Paper presentation (2023) (to be scheduled), A Spatiotemporal Analytical Outlook of the Exposure to Air Pollution and COVID-19 Mortality in the USA, submitted to *Spatial Statistics: Climate and the Environment 2023 Conference, Spatial Statistics, Elsevier*

- Paper presentation (2022), An Efficient Active Learning Design through Random Forest under Covariate, *Fall conference, Center for Survey Statistics & Methodology,*

Iowa State University

- Paper presentation (2022), Random Forest Prediction Intervals for Spatially dependent data, *Spring conference, Center for Survey Statistics & Methodology, Iowa State University*

- Paper presentation (2019), Detecting the effect of spatio-temporally correlated covariates under Bayesian spatially clustered Survival modelling, *Fall conference, The Korean Statistical Society*

- Paper presentation (2019), Bayesian Spatial Prediction with Nonparametric Modelling of a Spectral Density, *Spatial Statistics: Towards Spatial Science 2019 Conference, Spatial Statistics, Elsevier*

- Paper presentation (2018), Bayesian Spatial Regression with Nonparametric Modelling of Spectral Densities, *The 5th Institute of Mathematical Statistics Asia Pacific Rim Meeting (IMS-APRM 2018)*

- Paper presentation (2017), Bayesian Spatial Regression with Nonparametric Modelling of Spectral Densities, *Fall conference, The Korean Statistical Society*

Poster

- Poster session (2022), Random Forest Prediction Intervals for Spatially dependent data, *Department of Statistics 75th Anniversary Celebration, Iowa State University*

- Poster session (2022), Nonparametric estimation of the autocovariance of a Gaussian Process model in time series, *Expressing and Exploiting Structure in Modeling, Theory, and Computation with Gaussian Processes, The Institute for Mathematical and Statistical Innovation (IMSI) workshop*

- Poster session (2018), Prediction approaches of particulate matter and other air pollutants in a cohort study of degenerative diseases, *The Korean society of Atmospheric Environment*

- Poster session (2018), Bayesian Spatial Regression with Nonparametric Modelling of Spectral Densities, *The 3rd Eastern Asia Meeting on International Society for Bayesian Statistics (EAC-ISBA 2018)*

- Poster session (2018), The Impact of using Incomplete Address data on estimating the Health effect of PM_{10} on Low Birth Weight in Seoul Korea: A simulation study, *The Korean society of Environmental Health and Toxicology*

- Poster session (2017), Prediction of PM_{10} and Health Effects on Low Birth Weight in Seoul, Korea, *The Korean society of Environmental Health and Toxicology*

TEACHING/WORK EXPERIENCE

Iowa State University
Instructor for undergraduates: STAT330, Probability and Statistics for Computer Science (Summer, 2022)
- Topics: Basic probability; Random variables and their distributions; Stochastic processes including Markov chains; Basic statistical inference; Introduction to regression.
- Responsibilities: Instruction and Evaluation (Lecture videos were provided from the former instructor)
- Mode: Online
- Overall Ranking: 4.0/5.0

Seoul National University
Statistical Research Institute, Instructor - SAS tutorial (Summer, 2016)
Statistical Research Institute, Statistician - Statistical Consulting (Fall, 2015)
Research Assistant for graduates: Seminar in Recent Development of Applied Statistics (Spring, 2019; Fall, 2015)
Research Assistant for undergraduates: Statistics (Fall, 2016; Fall, 2014; Spring, 2014)

LANGUAGE/TECNICAL SKILLS

Language |
Korean (native)
English (fluent)

Technical Expertise |
Computing: SAS, R
Composing: R-Markdown, LaTeX, Overleaf
Visualization: R-Shiny
Cloud: Amazon Web Service
